

✓ **Correct** 1/1 Points

1. Literature review is *

- ☐ An annotated bibliography
- ☐ A book or review article
- ☐ An article summary or critique

☒ All of above

✓ **Correct** 1/1 Points

2. Hypotheses cannot be 'proven' to be true because the next study might produce different results that refute the hypothesis. This is known as...

*

- ☐ The problem of deduction
- ☐ The problem of replication

☒ The problem of induction

☐ The problem of proof

3. Why do you need to observe a Phenomenon

*

☒ All of these ✓

- ☐ To formulate hypotheses about the factors affecting the behaviour observed
- ☐ To observe the behaviour of interest and of potential causes for that behaviour
- ☐ To identify variables that appear to have an impact on the behaviour

✓ **Correct** 1/1 Points

4. Which of the following is NOT a characteristic of scientific thinking?

*

- ☐ Systematic observation
- ☐ Criticality and skepticism
- ☐ Empirical Observation

☒ Intuition ✓

5. Peer-reviewed literature means.. *

- ☐ unlikely to be of better quality than non-peer reviewed literature
- ☒ To assess before publication to ensure quality ✓
- ☐ to assess by the readers of the journal to ensure quality
- ☐ not available on the internet

✓ **Correct** 1/1 Points

6. When assessing Internet based literature, which of the following is NOT important?

*

- ☒ The layout of the site ✓
- ☐ The credibility of the author
- ☐ The purpose of the site
- ☐ The intended audience of the site

7. A literature review should include material that is

*

From any available discipline if relevant

Directly related to your research question only

Closely related to your research question only

From the wider sports literature, but not from non-sports literature

✓ **Correct** 1/1 Points

8. In the scientific method, what step comes between 'Theory' and 'Empirical Investigation'?

*

Results

Initial inspiration

Hypothesis generation

9. Which of the following is NOT a function of referencing?

*

☐ To demonstrate breadth of reading

☒ None of above ✓

☐ To attribute a quotation

☐ To justify your approach

✓ **Correct** 1/1 Points

10. Why do you need leturature review? *

☐ Because without it, you could never reach the required world -count.

☐ To help in your general study

☐ To make sure you have long list of references

☒ To find out what is already known about your area of interest ✓

✗ **Incorrect** 0/1 Points

11. Referencing previous literature occurs throughout research proposal and research reports, but is used most in the literature review.

*

☒ False

☐ True

✓ **Correct** 1/1 Points

12. Which one of the following statement is not true to note down from research articles

*

☒ None of these

☐ The research methods described in the article

☐ The relevance of the article to their research project

☐ The conclusions reached at the end of the article;

13. Which statement is not true? *

None of these

One of the the major ethical issues in conducting research is respect for anonymity and confidentiality

A hypothesis must be testable and falsifiable

A hypothesis tells you what data to collect and what not to collect, thereby providing focus to the study.

✗ **Incorrect** 0/1 Points

14. Which of the following is a characteristic of qualitative methods?

*

Uses carefully controlled studies.

Relies on replication of findings to consolidate and generalize conclusions.

Researcher is objective.

☐ Uses carefully controlled studies.

☒ Relies on replication of findings to consolidate and generalize conclusions. 

☐ Researcher is objective.

☐ Emphasises the exploration of meaning. 

✓ **Correct** 1/1 Points

15. Which one of the following is the purpose of Literature Review?

*

☐ To ensure the chosen research problems are researchable

☒ All of above 

☐ To avoid the ambiguity of research problems

☐ To depict the “intellectual environment” of the research problems
